

VIJAY RAJESH R

AI Enthusiast|AWS Cloud Practitioner|Oracle Gen-AI Professional|Cloud Pro|Open Source Intelligence

+91 73737 07055 • vijayrajeshr@gmail.com • [LinkedIn](#) • [GitHub](#) • Bhopal, India

Summary

B.Tech AIML student at VIT Bhopal with hands-on expertise in machine learning, LLM fine-tuning, and cloud deployment. AWS Cloud Practitioner and Oracle Gen-AI certified. Built production systems using Python, AWS Lambda, Docker, and local LLM models. Strong foundation in system design and DevOps CI/CD pipelines.

Technical Skills

Programming: Python • **Machine Learning:** LLM Fine-Tuning, Local Deployment

Cloud & DevOps: AWS, AWS Lambda, Docker, Git, GitHub, CI/CD, GitHub Actions

Frameworks & Tools: FastAPI, Streamlit, Node.js, MongoDB, MySQL, Open Source Tools, Hugging Face

LLM & NLP: Llama 3.2, Gemma, Deepseek, Local Model Deployment, LLM Operations • **OSINT:** Open Source Intelligence, Real-time Data Collection

Education

VIT Bhopal University

Bhopal, India

B.Tech in Artificial Intelligence and Machine Learning

CGPA: 8.63

Certifications

AWS Certified Cloud Practitioner • Oracle Cloud Infrastructure Gen-AI Professional • Google Data Analytics Professional Certificate • IBM Machine Learning with Python

Professional Experience

Operations and Web Development Intern

Dec 2025 – Present

Olcademy

Remote

- Architected and deployed cloud-based AI applications using AWS Lambda and Docker; implemented CI/CD pipelines via GitHub Actions
- Engineered scalable solutions reducing latency by 35% and cloud costs by 20% through performance optimization
- Developed Python automation scripts with AWS Lambda for infrastructure management, eliminating 40% manual overhead

Data Analytics Trainee

Jul 2025 – Aug 2025

MedTourEasy

Remote

- Built data pipelines for healthcare datasets using Python; created dashboards for stakeholder reporting
- Optimized data workflows; accelerated report generation by 25% and improved data quality by 18%

Marketing Strategist and Volunteer (Remote)

Jun 2025 – Jul 2025

Pawzz Foundation

Remote

- Drove 20% increase in donor engagement via targeted digital campaigns using analytics-driven strategies
- Executed outreach strategy reaching 1000+ individuals through 5 events; expanded foundation's digital presence

Strategist

May 2025 – Jul 2025

InAmigos Foundation (IAF) - NGO Based

Remote

- Led 3+ campaign strategy plans resulting in 30% boost in outreach response and community engagement
- Collaborated with 4+ stakeholders to implement awareness strategies and organizational initiatives

Projects

E.V. - Personalized Agentic AI with OSINT Technology

Jan 2026 – Present

- Engineered autonomous AI agent leveraging large language models, OSINT capabilities, and real-time intelligence gathering using OpenRouterAPI, N8N, and SerpAPI

SentinelOps-AI: Autonomous AI Agent for DevOps

Oct 2025 – Dec 2025

- Built autonomous DevOps agent powered by Amazon Bedrock (Claude 3.5 Haiku) and MCP servers for AWS CloudWatch runtime monitoring, without manual or human intervention

AWS-Based Text Summarizer AI: Serverless Pipeline

Sep 2025 – Nov 2025

- Developed serverless AI pipeline using AWS Lambda for automated text extraction and summarization
- Implemented continuous deployment via GitHub Actions for production-grade reliability

DocuSense-AI: Semantic Document Intelligence

Aug 2025 – Oct 2025

- Built semantic document analyzer using Llama models and FAISS embeddings for intelligent document classification, supports open-source models
